

Quality Policy Statement

LEDspan are a dynamic Bespoke LED Lighting Design Company established in 2013. We provide bespoke lighting solutions for Hi-end Cleanrooms in the Biopharma, Pharmaceutical & Medical Device sectors, along with other industrial and commercial sectors.

LEDspan Ltd. is totally committed to the principles and practice of excellence and will conform to the requirements of the ISO 9001:2015 Standard.

It is the established policy of LEDspan Ltd to provide its Clients with products and services which comply in all respects with agreed requirements and to enlist the support of staff, subcontractors and suppliers to achieve such conditions.

We are committed to providing an unequalled customer service and our objective is to deliver quality LED lighting, safely, on time and within the budgets provided.

The company achieves these objectives by means of continuous improvement in partnership with our Staff, Subcontractors, and Suppliers. The company sets specific quality objectives within the Company Business Context Analysis Document.

All staff members are inducted in the Quality Management System, all subcontractors and suppliers are advised of the Company's Quality requirements prior to their services being contracted.

To ensure that the quality objectives are met the Directors and Senior Management are committed to playing an active role in the implementation of the Quality Procedures. The quality objectives will be reviewed annually, taking into account new developments and experiences and all staff will be inducted on changes to the system as they occur.

Signed

John Comerford
Managing Director
